EXPREIENCE

Home chow (Vancouver)
Front end Developer intern
- Handled Production of various web pages
- Utilising Next js with typescript & React as a Front-end technology
- Responsible to test the application using e2e tool, i.e., cypress.
- Utilizing Git

Kent German Global

Electrical Engineer and junior Analyst Intern

- Used Excel to compile monthly reports of operations carried out in the E&I department, identifying key areas for improvement to senior management.
- Used Excel to document calibrations carried out. Which saved my department a ton of time when going back to look for specific data.
- Prepared reports using Microsoft power point about task assigned to my team and presented to senior leadership.
